3 8/28/09  
mm

SAT 3-1-08 / Tour 251520760

The image is a dark, almost black, rectangular scan with a very high level of visual noise and grain. A prominent vertical band of lighter, greyish-white speckles runs down the center of the frame, suggesting a fold or a change in material texture. The overall appearance is that of a severely underexposed or corrupted scan of a physical document, with no legible text or identifiable figures present.
